

AUTUMN TOWEL

This is a radiant panel covered with multicoloured stone which lead us to think to Mediterranean coasts and terracotta. It is particularly indicated in buildings with bright furniture and pastel-coloured spaces. This type of panel can be perfectly used and adapted everywhere: in the mountains, in the seaside, in the city centre, etc..

- Input voltage 230 Vac
- Protection Class I
- Electrical protection level IP44
- Operative temperature: 60 ÷ 80 °C
- On bathrooms this device can be installed as per zone 2, in compliance with directive IEC 364-7-701:1984
- Cable for electrical connection: 1 m long
- Painted steel structure
- Finish: 2 mm of natural sandtone pre-treated with stain-resistant products
- Certification 
- Every stone surface of this device has its own peculiar features which depend both on minerals and climate conditions of the place of origin. Accordingly, colours and patterns represented by pictures in the catalogue are merely demonstrative. For that reason, stones which belong to the same class can have different characteristics from each other.
- The company reserves the right to change without notice specifics of the products details declining any responsibility for incorrect data.
